Yard Waste Collection

Yard Waste Collection is scheduled to resume on Monday, March 18, weather permitting. Assessment and Collection

The Grand List of October 1, 2018 was signed on January 28, 2019 as required. Assessment notices for all real estate accounts with increased assessments, and all personal property accounts were mailed on January 31, 2019, which is within the ten days after the signing of the Grand List as required by statute. More details on the Grand List were provided previously.
Board of Assessment Appeals hearings for the Grand List of October 1, 2018 began in early March. The statutory deadline to file an appeal for a hearing with the Board of Assessment Appeals was February 20, 2019. Board of Assessment Appeals hearings will be held on:

Monday, March 11, 2019 at 6:30 pm
Tuesday, March 12, 2019 at 6:30 pm
Saturday, March 16, 2019 at 8:30 am (if necessary)

Thursday, March 21, 2019 at 6:30 pm (if necessary)
Saturday, September 7, 2019 at 8:30 am (motor vehicle appeals only)

After every Grand List, taxpayers have the right to appeal their assessment to the Board of Assessment Appeals, a process that happens every year. Manchester’s Board of Assessment Appeals consists of five people at this time: David Dumaine (Chair), Aprill Shines (Secretary), Stephanie Knybel (member), David Wichman (alternate), and Timothy Bergin (alternate).

January and early February were busy months for the Assessment & Collection staff due to tax bill installments that were due by Friday, February 1, 2019. This year’s tax payments included the second installment on real estate and personal property (where applicable), and supplemental motor vehicle tax bills. These tax bills, along with the completion of the Grand List always results in a very busy time in the Assessment & Collection Office.

**Change Your Clocks – Change Your Batteries – March 10, 2019**

As Daylight Saving Time approaches on Sunday, March 10th, we’d like to remind you to make another change that could save your life — changing the batteries in your smoke alarms and carbon monoxide detectors. Communities nationwide witness tragic home fire deaths each year. An average of three children per day die in home fires and 80 percent of those occur in homes without working smoke alarms. Non-working smoke alarms rob residents of the protective benefits home fire safety devices were designed to provide. The most commonly cited cause of non-working smoke alarms: dead or missing batteries. The simple yet powerful act of changing the batteries in smoke alarms and carbon monoxide detectors when you change
your clocks on March 10th is one of the simplest, most effective ways to reduce these tragic deaths and injuries. If you have purchased the newer smoke and carbon monoxide detectors that have sealed batteries that last 10 years ….. Congratulations! You have made a wise investment in the safety of your family! All you need to do is press the “TEST” button and ensure that it’s working. Please replace any smoke alarm that is more than 10 years old.
