

School Modernization and Reinvestment Team Revisited (SMARTR)
OBJECTIVES

- Identify a school design(s) to provide appropriate and sustainable educational facilities for the next generation.
- Meets the needs of current and projected enrollment data and student demographic data on a grade level configuration.
- Allows for a racially balanced school district.
- Provides equitable access to high quality education options.
- Considers the impact of curriculum and instructional changes over the next twenty years.
- Identifies capital improvements necessary for appropriate, high quality, engaging learning environments.
- Demonstrates long term fiscal responsibility with consideration given to cost-sharing and education legislation.
