Having lived in town for close to 40 years, I realize Manchester is a very special place. We have a rich history as Manchester was originally the home of various native Indian tribes followed by the Cheney family that settled in town and built the silk mill factories which provided employment for so many. They welcomed immigrants from abroad to work and make a home here. Manchester continues to be a welcoming place. We now need more businesses to sustain our population and keep our taxes affordable. I look forward to improving the Quality of Life for all residents and to restoring our Village Charm.
